DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in France on 15 April 2003. It is noted, however, that applicant has not filed a certified copy of the 0304672 application as required by 35 U.S.C. 119(b).

Claim Rejections - 35 USC § 112

2. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 5, "the physical and chemical parameters ... which are measured and modified" lack prior antecedent basis because they were claimed in the alternative in Claim 4 (i.e. the phrase "at least one of the following" in claim 4 does not have to include both steps).

Allowable Subject Matter

3. Claims 1-4, and 8-12 are allowed.
4. Claim 5 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
5. The following is a statement of reasons for the indication of allowable subject matter: the prior art alone or in combination does not disclose a process for

reconditioning a hermetic package containing water and at least one live aquatic animal, in particular intended for aquariums, the aim being to extend the maximum duration of transportation while keeping the animal alive, characterized in that it comprises at least the following steps, which consist in: (a) opening the package to access the water contained in it since the initial packing; (b) replacing all or some of the polluted transportation water with an unpolluted reconditioning water prepared in such a way as to present physical and chemical parameters analogous to those of the polluted water, and in particular at least a substantially identical PH value; (c) re-closing the package in a leaktight manner in order to permit a further stage of transportation.
